Anticipated Graduation Date:

From the Student Handbook:

**1.2 The Concurrent MDiv/MCL Program**

The concurrent MDiv/MCL program is designed for those wishing a combination of academic and professional programs, and requires one year (24 units) beyond the MDiv, i.e. a total of 102 units for BST students. Participation in the MDiv/MA may be consecutive or concurrent and successful completion results in two separate degrees. Students that are enrolled in either program wishing to enter the concurrent degree program must apply and be accepted to the other degree program before graduating.

MCL students usually complete 12 units of BST coursework prior to beginning an internship and should be in good academic standing before progressing to an internship. (See 6.2.2.2 Note)
